To The Editor

Editor,
Carmel Pine Cone:

Mathematically it could probably be shown that pollution increases as the product of two factors – population and technology. Thus, a doubling of both of these would quadruple the pollution, and to this date there is nothing to indicate that we are winning any of mankind's more serious battles, whether against crime, nuclear proliferation, racial unrest or general distrust among nations.

It does not have to be this way. The same technology that gave us the pesticides and the detergents and the smoke, and gave us the increased food production and medical advances that brought us too many people – this technoloyg could be used to control its by-products.

But it probably won't be. The obstacles – apthy, social and religious dogma, greed, short-sightedness, the "Let George Do It" syndrome, and just plain ignorance – thes obstacles are well-entrenched, world-wide.

Thus, local efforts,no matter how valiant or effective locally, will in thee long run be at best a delaying action. Monterey Bay, for example, will not fare well when 12 heavily populated San Francisco Bay area counties are forced to dump sewage into the Pacific above Santa Cruz.

A grim, pessimistic picture? Yes, but the point is this – we can do something about pollution, but it will have to be done on a national and international scale, but here, again, the hopes are not bright.

We don't have very many men like Bob Wood in high places. Our Congress has had a long record of "too little and too late" in most fields, and considerable conflict of interest in many others.

But there is our only hope, if there is hope, and pressure by our people on our Congressmen is the only key.

Kiwanis hear AFS students

". . . I missed the friendliness and informality of Carmel and having boys in my class," Sherri Stuart told the Kiwanis Club last Thursday.

Sherr and fellow student Rene Madelaire of Denmark were introduced by Sherri's father, Robert Stuart of the local American Field Service Student exchange program. The three gave the Kiwanis an overview of the exchange program.

Stuart explained that Carmel students are presently studying in Japan and Argentina. He also told the club something of the history of the local Field Service.

Sherri said that she attended classes in Austria with 14 other girls who helped her improve her German and adjust to school in a foreign country. She studied six days, 40 hours a week.

Sherri also pointed out that Christmas in Austria is the mother's job. She does a great deal of cooking and trims the tree. None of the family see the tree until Christmas morning. The Austrian Christmas spirit is much the same as ours, she said, but the Austrians are more religious. The country is predominantly Catholic.

Rene, who lives in a town near Copenhagen about the size of Carmel, explained that he wanted to learn English in order to study engineering and science textbooks which are only available in Denmark in English or Russian.

In other business last week, Howard Runion of Carmel, a retired university professor was welcomed as a new member.

Oliver's Observations

By Carl D. Oliver

BETCHA didn't know th bath tub was invented in 185 and the telephone in 1875. I really must have been great, jus sitting there for 25 year without the phone ringing once

Now that you can enjoy th convenience of the telephone the smartest thing you can do i call 373-2751, or better still run right over to 1449 Canyon Del Rey, corner Del Monte, i Seaside. Why? Because that's where you'll find the amazin new Wearathon by Armstron with the exclusive Drunboa process, the popula indoor-outdoor carpe everybody's talking about. Th place to se it, of course, is H & H Supply – Where else?In th meantime, remember – H & H means "Happy Holidays!" (And Carl Oliver means what he says.

Everyone knows tha driving and drinking don' mix, but it is especially important to keep this in mind during the holiday season, warns Liberty Mutual Insurance Companies. If you plan to drink alcohol at a Christmas or New Year's gathering, don't plan to drive. Let a non-drinker take the wheel or arrange to take a taxi home. The fare could be well worth it.

Show of platinum photos now at Friends of Photography

The Friends of Photography opened an exhibit of photographs on Dec. 20.

The exhbit includes work by Alvin Langdon Coburn, Imogen Cunningham, Peter Henry Emerson, Frederick H. Evans, Margreth Mather, Paul Outerbridge, Alfred Stieglitz, and Edward Weston.

The exhibit has been made possible through the courtesy of Mr. and Mrs. Beaumont Newhall, the Lane Foundation, Ansel Adams, Imogen Cunningham, Evan Evans, and the George Eastman House.

Platinum, one of the most precious of the elements, has been used for making photographic prints since before 1973. It did not come into general use, however, until the early 1880's.

Peter Herny Emerson was the first to use the "platinotype" and utilized it with great effectiveness.

Into the modern times, Edward Weston utilized this process until 1924. By 1937, due to the high cost of platinum, in addition to the changing demands on the visual image produced by photography, the paper was discontinued by all manufacturers. The platinum photographic process is among the most permanent and stable of all photographic prints.

In the second gallery, 40 exhibitors, all members of the Friends of Photography nationwide, will have their photographs hung in the first membership show for the Friends of Photography.

More than 1500 prints were submitted for the selection committee to review. The combined exhibit of the platinum show and the membership show should provide an unusual opportunity for the photographic connoisseur.

The Friends of Photography Gallery at San Carlos and 9th in Carmel invites the public to view this unique collection of fine photographs. Gallery hours are 1 p.m. to 5 p.m. daily except Monday.

A HOLIDAY INVITATION – Mrs. Joan Willingham invites visitors to her Upper Room gallery of religious art to view the painting "Christmas Night" and other religious arg work. The gallery, which is located on the northeast corner of Dolores and seventh, opened with a one man show by Barbara West on Dec. 10.

CARE is non-political, but effective self-help program

"Your 1969 donation to CARE may be called 'charity' on your income tax return, but this same donation will be called 'opportunity' by needy recipients overseas," says Molly Farmin, regional driector of CARE.

Each day some 30 million persons are fed by the international relief and development agency. This food alleviates immediate suffering and also gives strength for self-improvement.

To assure this self-improvement, CARE accompanies its feeding programs with the instruments for self-sufficiency and independence – garden kits and tools with which needy people may grown their own food; schools and needed supplies for better education; tools and training for would-be craftsmen; and medical aid to lessen the incidence of disease.

"To people gripped by poverty, ill health, and ignorance, CARE offers the possibility of change. The end objective is to heighten the effectiveness of the feeding programs and, thereby, lessen the need for them," Miss Farmin concluded.

PARTY PLANS . . .

by Phyllis Jervey

"Change of Pace Parties"

As mothers of teenagers will agree, youth may not always hunger for knowledge, but it does hunger for food. Life is never dull when you are around young people.

The pace is fast and music, clothes and fads change constatnly.

One thing that never changes is their appetites. Yes, many of them watch their waistlines . . . but during these holidays, youth should be served what it wants.

Realizing that young cooks' savvy is often more limited than their gusto, we've planned up-to-date dishes and ideas for holiday hospitality.

Youth prefers picnic-type entertaining . . . with colorful plastic-coated paper plates and cups and other easy to clean or throw away accessories. In this way parents do not dread the aftermath since drudgery will be avoided for juniors as well as seniors.

Hamburgers, hot dogs and pizzas are still established as the favorites of the go-go group, that is, the click set.

As these progress into college age, they acquire more sohpisticated tastes. We are also including some newer recipes for young gourmets. Wait until you read on.

We are staging two evening get-togethers. The first is a super stereo supper. Most will have had a family dinner at home

The other one is quite different . . .something that is typically Monterey-Big Sur Coastline . . . for skindivers.—

Menu #1 Stero Supper
Assorted Nibblers
Soft Drinks
Meat Balls with Cheese Dip
Frankfurter Crown Casserole
Tuna Zippy Pizzas

The idea is for everyone to dance and eat whenever which urge is on. It is all there. The action, the music goes on and on, the where-with-all to keep going.

Assorted Nibblers

Saute peanuts in butter and sprinkle lightly with any of the following spicy powders. First have plenty of the canned peanuts . . . and let each become experimental with curry, paprike, chili powder, ginger and cinnamon flavors.

Have potato chips, the barbecue ones, or non-flavored, plus fritos. Prepare raw vegetable strips . . such as baby carrots, celery, radishes, cauliflower, zucchini, green pepper rings, broccoli and mushrooms ahead of time for a mini time saver. At serving take these, cold and crisp, from the refrigerator and show them off around a scouped out vegetable holder, such as a huge green cabbage, filled with a popular dip.

Meat Ball with Cheese Dip
(Makes 40 meat ball sandwiches)

Meat Balls: Two lbs. hamburger; 2 cups soft bread crumbs; 2 eggs; seasoned salt, crushed oregano, pepper (¼ t. each) and ¼ cup 7-Up soft drink.

For meat balls, combine hamburger crumbs , eggs, salt, , oregano, pepper and 7-Up. Mix and form into small meat balls. Put into shallow pan and bake in preheated 400 F. over until browned. Turn once. In the meantime make

Cheese Dip: One can (11 oz.) condensed cheese soup; 1 t. Worcestershire sauce; ½ cup 7–up; 2 pks. party rye bread slices.

Combine undiluted cheese soup with the other items. Blend. Heat slowly intil hot. Put into sauce pan over candle warmer, chafing dish or electirc heater to keep hot. Guests (and family) will dip with delight into this sustaining sauce, meat ball on bamboo sticks or toothpicks. The bread is there also to make into open face sandwiches.

As for hot dogs here is a casserole which can be made in advance and has that certain cosmopolitan flair.

Frankfurter Crown Casserole

Two slices bacon; ½ cup chopped onion; 1 can cream of mushroom soup; ½ cup water; dash of salt and pepper; 3 cups sliced cooked potatoes (peeled and still firm); 1 can green beans; 1 lb. frankfurters; split and quartered.

In skillet, crisp bacon, remove onto paper towels, crumble. Saute onions in bacon drippings. Stir these into soup, water, seasonings, potatoes and beans. Pour into casserole. Stand franfurters up around edges. Bake at 350 F. for 30 min. Top with bacon bits.

Pizza is something the generation gap can prepare themselves without supervision . . and also be excused from k.p.

Like any pizza, the one forthcoming can have almost anything added. Start with a hot roll mix, making two crusts, then add what have you.

Tuna Zippy Pizzas

One pkg. hot roll mix; olive oil; ½ cup each, minced onion and garlic; 1 can sliced drained mushrooms; 2 small cans tomato sauce; pinch, each, crushed basil and thyme leaves . . or any herb that takes your fancy; 4 cans white tuna undrained (because the lovely oil is so good); Mozzarella slices; thinly sliced green fresh Bell pepper rings; halved ripe olives.

Prepare roll mix acording to pkg. directions for pizza; divide dough in half and roll out each on floured board. Place these on cookie sheets, ease dough onto each. Brush lightly with olive oi. I aupanlighy brown onion, garlicyin T. oil; add mushrooms, and rest of items. Top with cheese. Bake in 450 F. oven until cheese is melted and goldenly-brown. Serve in own foil pans.

To maintain the tempo, have Triple Decker Floats and Fruit Nightcaps on tap.

Triple Decker Floats

Place one scoop each of orange sherbet, vanilla and chocolate ice cream into individual tall glasses or strong paper jumbo cups. Tilt these and slowly pour in your favorite soft beverage. Serve with straws and wooden stirrers.

Fruit Nightcaps

Fill a large bowl with drained cut-up canned fruits. Add a dash, each of powdered nutmeg, cloves and lemon juice to cut the overly sweet taste. Add a dash of green peppermint flavor or grenadine.

As to our 18 year old local skindivers, they like most of all to skim the coast and skindive. They go from P.G. to Big Sur searching for fish and fun. Your columnist, who, it is taken for granted, loves fun but does not skindive, did find out these current facts from Ray, Doug and Ed.

"What do you take along to warm you up after you remove those slippery, icy, clinging black garments of yours?"

"We start a beach fire with driftwood (usually take some briquets or pine along for emergencies). We need to dry out, you know.hen when to wood ha gone into red hot low coals, we put our live crab right on the coals!"

This is something quite new for Mrs. Party Plans. "My goodness, you mean you put the live crab, uncleaned, right down on the fire?" "But, natch," was the answer. "How do you clean them?¾¾ "We just crack and eat 'em, Ma'am!" . . These three young men are all about to be inducted,

Report From RLS

by Tim Donahoe

The students and faculty of Robert Louis Stevenson combined to create the most exciting Christmas atmosphere in recent yeaars on the Pebble Beach campus.

An unexpected visit from Santa Claus initiated the activities planned for the week. Snata prsented, to the delight of all the students, appropriate gifts to individual faculty members.

The senior class contributed to the Christmas cheer by staging a skit starring J.B. Thriftymaster. Aimed at those individuals who see Christmas as a time designed soley for commercial exploitation, the satiric production attempted, and quite successfully, to demonstrate the need for a return to the true values of the Yuletide season.

Perhaps the brightest highlight of a highlight filled week was the presentation of the first annual "Christmas Faculty Fiasco." Staged by teachers and administrators, the production saw slapstick comedy abound as the cast poked fun at students and themselves.

Surprise of the evening's entertainment was the introduction of a barber shop quartet comprised of four members of the faculty who sounded as if they had been singing together for years. The stage production brought both students and faculty closer together in the spirit of the season.

The night before vacation, the annual Christmas Program was held in the chapel of the school. Attended by parents and friends, the program consisted of choral and solo presentations followed by a candlelight procession.

Witnesses hear Ted Jaracz

"True Worship vs False" was the title of the public liscourse given Sunday at he Santa Cruz County Fairgrounds by Ted Jaracz, District Supervisor for Jehovah's witnesses.

Speaking to a crowd of nore than 2,225, Jaracz aid, "The modern liberal eligious spirit where nything goes as long as it uits the individual and is to is liking would find it hard oing in the 10th century 3.C. when a dispute arose as o which worship was true, hat of Jehovah God or the alse god, Baal."

The speaker then iscussed the ministry of lijah who was used to xpose the falsehoods of the agan worshiping Cananites s well as the apostate sraelites.

Jaracz pointed out that he world situation facing ankind today is similar to hat of Elijah's day.

Francis Goetz, overseer of the Pacific Grove Congregation of Jehovah's witnesses said that all were delighted over the 75 new ministers added by means of the mass ordination ceremony held Saturday afternoon. "Meetings at the local Kindom Hall" he said, "will be resumed this week."

Christian Science Bible Lesson

The subject of the Lesson-Sermon to be read in all Christian Science churches this Sunday is "God," and includes this definition from John: "God is a Spirit: and they that worship him must worship him in spirit and in truth."

The Lesson-Sermon also includes passages from Science and Health with Key to the Scriptures by Mary Baker Eddy. One of the selections is: "Not materially but spiritually we know him as divine Mind, as Life, Truth, and Love. We shall obey and adore in proportion as we apprehend the divine nature and love Him understandingly, warring no more over the corporealtiy, but rejoicing in the affluence of our God" (p. 140).

The public is welcome to attend Christian Science services.

Christian Science Radio Program

"Drugs and he Individual" is the title of next Sunday's program on the Christian Science radio series "The Bible Speaks to You." It will be broadcast over stations KGO at 7:15, KRML at 7:45 and KDON at 8:45.

SOCIAL SECURITY AND YOU

By Raymond MacDonald

Q. I applied for Medicare in March 1969 when I was 65. Since I have never worked under Social Secuity, I have only medical insurance coverage. My sister is two years older than I am and has never worked under Social Security. She has both part os Medicare. Why is my case idfferent?

A. People who were 65 before 1968 are not required to have worked under Social Security to qualify.

Q. Even though I'll be 65 early next year, I'm not going to retire from my job. Is there any reason I should contact the Social Security office at age 65?

A. There certainly is — don't forget Medicare. Remember you don't have to retire to get medical protection from your Social Security. Sign up for Medicare two or three months before you are 65. At the same time you can find out what your Social Security check will be when you do retire.

(Mail your questions to Social Security, c/o the Carmel Pine Cone, Carmel, or phone Social Security office 373-3351)

What is Christian Science?

It is a religion based on the words and works of Christ Jesus. It has helped many like you to prove in a measure the meaning of Christ Jesus' promise: "He that believeth on me, the works that I do shall he do also." It shows the scientific basis of Christianity and how to avail yourself of the laws of God in everyday life. If you would like to learn more about Christian Science, you are welcome to come to our Reading Room and to read this week's Bible Lesson.

Librarian's Notebook

By Ruth Galvin Thornburg, City Librarian

Because of the omnipresent communication media, they say the time may have come when the American voter will have to make up his mind whether he intendes to vote for a man because of his brain and record or buy a television personality who comes over to the public as a packaged deal.

This is the accusation and implied question posed by Joe McGinniss in his book **The Selling of the President 1968.**

Those of you who saw this young man on a recet television program with William Buckley will recall that even the adroit Mr. Buckley could neither trip him up nor confuse him. Here we have one man's opinion of who and what elected Richard Nixon.

The book is well written and extremely interesting. Speaking of myself, I voted for Pon Chung.

World Without Time, The Bedouin is the result of a trip into the eastern Jordanian desert which Edward Nevins began in 1967.

The purpose of the trip was to search for traces and remembrances of T.E. Lawrence, but it gradually took on the aspect of research into the timeless lives of the Bedouins.

The book is illustrated with many photographs taken by the author and they are interesting. This is not always the case, for the fact that a person can write is no guarantee that his snap shots are worth printing.

The Jordanian government asked all foreigners to leave the country after the outbreak of the Arab-Israeli War and this forced an early end to Nevins trip.

But the book is a good one which you will enjoy.

Many of you will recall **The Gift of the Deer,** a book by Helen Hoover, who wrote about what happened after she and her husband bought a place in the norther wilderness of Minnesota.

Comes now her second book, this one entitled **A Place in the Woods.**

There's something about a book like this that makes it interesting to most readers. Perhaps it's the hardships overcome, the lack of money, the good meals made from odds and ends, the animals, the whole bit.

Whatever it is, it's great to read about but hard to experience.

Augusta Wilhemina Amalia Louise was a young German princess who married King Frederick William III of Prussia. People who saw her were struck by her extraordinary beauty, but diplomats found her as daring and as brave as a man.

She died in 1810 while still a young woman.

The story of her life is told in **Beautiful Enemy** by Constance Wright. The title of the book comes from the name she was called by Napoleon, "My Beautiful Enemy."

* * *

For parents of college students we have a small book called **College Talk** by Howard Lowry. It is a collection of short speeches on subjects of interest to college students, which it would do all of us good to know.

And so . . . peace.

Try Tampa for sponging

Just about the best place in the United States to sponge off your friends and relations is a quaint Greek fishing village nestled in the West Coast of Florida.

Tarpon Springs has become the center of the world's sponge diving industry.

Here sponge divers spend weeks at sea gathering these plantlike animals from ocean beds. Upon returning to the village they store their haul in "sponge exchange" cells opposite the docks until auction time when sponge buyers from around the world bid on the goods.

Wire baskets and tables outside the village shops also display these plump sponges for sale to tourists who pack them home for souvenirs.

Tarpon Springs is a short drive from Tampa, which is served by National Airlines from West Coast cities. Its temperature hovers at 72 degrees year around.

Many tourists will visit this Mediterranean-like city the first week in January to view the annual Epiphany ritual conducted by members of the Greek Orthodox Church.

Scheduled for January 6, the worship celebration begins when the Archbishop tosses a large gold cross into the river and Greek youths dive to retrieve it for the honor of the church. A parade through the city streets to the Bayou follows.

Check with your local travel agent for flight schedules and further information.

All-year trout fishing for central California voted

A large part of central California will be open to all-year trout fishing under the 1970 sportfishing regulations adopted by the Fish and Game Commission.

The new rules, which become effective Mar. 1, will open streams as well as lakes and reservoirs in much of the San Joaquin Valley and Sierra foothills and a number of reservoirs and lakes elsewhere in northern and central California.

Reservoirs near urban areas or otherwise subject to heavy fishing pressures will have year-'round five trout limits, but others will have a five-fish winter limit and 1-fish during the general season.

The commission, at its Dec. 5 meeting in Sacramento, set the 1970 general trout season for May 2 through Nov. 15.

Only lakes and reservoirs will hve all-year trout angling in the counties of Alameda, Butte, Colusa, Contra Costa, Glenn, Lake, and Mendocino (except the Eel River drainage), Marine, Monterey (except Los Padres and San Clemente reservoirs), Napa, Sacramento, San Benito, San Joaquin, San Luis Obispo, San Mateo, Santa Clara, and Santa Cruz.

The commission adopted a uniform two-fish winter trout and salmon limit on coastal streams south of San Francisco. Fishing will be allowed on Saturdays, Sundays, Wednesdays, opening and closing days and legal holidays Nov. 16 through the last day of February.

CUSD Board votes Carmelo School for bus storage

A bus garage on the Carmelo school site was voted by the members of the Carmel Unified School District board of education at their recent meeting.

Last month the County Planning Commission refused the district a use permit by a vote of 4-3, but state law provides that a refusal of this kind can be overridden by a two-thirds vote of the school board. All four trustees voted in favor of rendering the zoning oredinance inapplicable.

The board also voted to advertise for bids on the construction of the bus garage facility on the Carmelo School site.

School superintendent, Dr. Harris Taylor, explained to the board members that the present bus compound at Carmel High School is too small and that busses must wind through the twisted roads of the campus and on to Highway One thus creating a danger for students.

He added that the district does not have the funds to build a compound in a remote canyon. Roads to the site and building equipment would be costly and the busses would be farther from the children, adding more to the cost. He mentioned also that large landowners near the Carmelo property were in favor of the compound.

Rev. James W. Borck pointed out that there is a location near Middle School that might be suitable for a bus garage, but Dr. Taylor replied that this site would necessitate an expensive road building operation and the property would be unable to be used in the future to provide further educational facilities for the school.

Blood donors

In an effort to combat a chronic shortage of blood during holiday periods, the American Red Cross, the American Medical Association, the American Hospital Association, and the American Association of Blood Banks have joined to issue the following statement: "The continuing need for blood donors becomes especially acute during holiday periods. The deficiency of blood donors during this time is reflected after the holiday period . . ." Red Cross Chapters and blood centers have been urged to make plans for adequate blood collections during this period.

Joanne's Jottings

LAST WEEK I almost got a ticket for speeding. I talked the officer out of it very easily though. He told me I was going 70 miles an hour. I merely explained to him that I didn't even realize that there were that many miles in an hour.

I do realize, however, that with Christmas shopping now over, wise women shoppers are looking for bargains. And these women all know that the place to go for unsurpassed savings on fine women's wear is Joanne Boutique in Carmel Valley (Opposite the post office, next to the the pharmacy.) This traditional store-wide year-end sale starts Dec. 28th. Here you can save as much as 50% on such outstanding apparel as Mr. Robert dresses, Talbott knits, Lanson rainwear, just to name a few. Come out early and avoid the rush. In the meantime, joy to all from Joanne and everybody at Joanne Boutique.

Movie Review

Butch Cassidy and the Sundance Kid – Paul Newman and Robert Redford are western outlaws whose day has passed. A comedy of anticlimaxes with superb photography, a folk-tale touch and a violent conclusion. At the Village in Carmel.

Bob and Carol and Ted and Alice – An irreverent social satire, slick in its trimmings and backgrounds with a sharp bite in its characters, dialogue and frank appraisal of modern marriage and mores. Golden Bough.

On Her Majesty's Secret Service – The new James Bond, George Lazenby, skiis and bobslees after the villainous chief of Spectre and takes his first plunge into matrimony with T.V.'s former Avenger, Diana Rigg. At the State.,

101 Dalmations – The sinister Cruella Daville plots to capture the 101 Dalmations in Walt Disney's delightful animated re-issue playing at Valley Cinema.

Easy Rider – Latest motorcycle epic stars Peter Fonda and Dennis Hopper as hip-types in search of America. Aspects involving drugs and sex and long emphasis on traveling sequences make much of the ballyhoo that has greeted this film. Playing at Marina Auto.

Sam Whiskey – A western comedy with Burt Reynolds who agrees to return stolen gold to U.S. mint, and Angie Dickinson who tries to save her family's honor by returning stolen gold bullion to the mint. At the Village.

Camille 2000 – Radley Metzger's updating of a tale by Dumas the Younger emphasizes graphic sex acts. "The Lady of the Camellias" has been the favorite part of actresses for ages. At the Hill.

John and Mary – Dustin Hoffman and Mia Farrow co-star in an off-beat romance, and they do a creditable job to make a good, "X" rated film. At the Cinema 70.

Lady Caradon is Town House series speaker

The wife of Britain's permanent representative to the United Nations, Lady Caradon, will be the next speaker in the Town Hall Lecture Series sponsored by the Monterey Institute of Speech and Hearing.

She will appear Jan. 8 at 10 a.m. at the Cinema 70 Theater in Del Monte Center. Tickets will be available at the door and will contribute to the building fund for the three-year-old Institute of Speech and Hearing.

Lady Caradon's husband was Sir. Hugh Foot before he was elevated to the English peerage and as a career diplomat served in a variety of posts, taking his family with him. The couple has four children, one born in England, one in Haifa, one in Jamaica and one in Nigeria.

Lord and Lady Caradon's most tumultuous assignment was in 1957 to strife-torn Cyprus. He served as the last British Governor during the years of violence and bloodshed prior to the settlement establishing the Republic of Cyprus.

Lady Caradon's book, *Emergency Exit*, describes her observations and feelings about the changes in Cyprus.

Famous as a charming and witty hostess, Lady Caradon spent her childhood in Iran where her Scottish father was a political advisor to the oil companies. She was schooled in her mother's native Italy and later met her future husband while visiting in Palestine.

LOVELY LADY – Samantha Eggar is the lovely co-star of "Doctor Dolittle" playing matinees at the Village Theater through Saturday, Jan. 3. Based on Hugh Lofting's classic stories about a 19th century English physician who learns to speak animal language, "Doctor Dolittle" also stars Rex Harrison, Anthony Newley and Richard Attenborough. Special group discount rates are available by calling Lynn Pearson or Tom Graff at 624-5342 or 624-4226.

PRESENT TIME – Hizzonor's present shop on the corner of 4th and Mission is spacious, architectually attractive, and nearly new. But as roomy as it is, the popular mayor's business is already filling the building to nearly overflowing.

Francisco Bernardo Ercole Luigi Laiolo, First Citizen--

By Jewell White

Continued from last week

And tho the "outside" world seems to be caught up into the whirling vortex of the freeway twist, Carmel still goes on, in her quiet way, blessed with so many gracious people like the Laiolos, to whom home and the fire-side will always be of prime importance.

The untimely loss of Mrs. Laiolo was a tragedy the Mayor had to live with . . to try to understand WHY . . . and it has left him with an unusual understanding of others' misery. He has a keen knack for saying just the right ting to troubled people.

This special trait is found in very few men. How fortunate for Carmel that he chose to leave a secure job at the Fugazi Bank of San Francisco and settle here.

About a man, himself.. would say . . . Tall in stature and tall in character.

He is full of abundant energy and drive, and his white hair only serves to add more dignity and poise to his general image. He has three fine sons – Tony who is 21, Chris who is 19 and Linder, who is 17.

They are also tall men . .and all have the innate good manners that does their mother's memory proud.

So, Casa Laiolo is a bachelor-hall . . . and at least ONE room reflects this clearly. How many men can boast a TV room utterly uncluttered except for a console TV set and one leather-covered lounge chair with ottoman? But then, even this is reflective of the Carmel influence . . . One may reflect on *many* things, at times like these.

Astrologically speaking, I've made a thumb-nail sketch of Barney and it indicates a long public life. He is Libra. Born on September 24 with a birthday that is typically career-indicated.

He is a Friday's child, which means "loving and giving" and dealing with the public is as natural with him as breathing. His number at birth comes out a 22 which is the most desireable number. Only trouble with that is that it makes so much to live up to.

Often one's health suffers in the daily persuit of trying to do all that the mind demands. He should do all things well that he can do with his hands. It is an air sign, and his Village El Shop certainly takes care of all of that.

The small shop he once had and the pesent one bespeak the growth of the area. He simply expanded as business indicated.

His first shop was located at Mission near 4th, and the present shop at the corner of Mi ssion & 4th . . . abou a half block apart . . But miles apart in size and inventory . . and it will keep growing.

So say the stars.

Locally he has answered the call-of-the-theatre, and has appeared in numerous plays. "Bye Bye Birdie" at the Studio, "The King and I'' at the Golden Bough . . and others. He also took a course in Charcoal and Portraiture from Kay Rogers (as his Horoscope indicates, things to do with his hands) . . . and was stationed at Fort Mason in the Signal Corps during world War II . . Yes, I'd say that our Mayor is as much a part of Carmel as Carmel is of him. Qualified and able to represent Carmel to the rest of the country exactly as she is.

Be sure to watch for our next sotyr when we will honor another of our Carmelites, to whom we will give our CCCD degree (Carmel Citizens Cultural Development) and add to our Small-Hall-of-Fame.

Area Scouts set winter camp

The annual winter camp of the Monterey Bay Area Council, Boy Scouts of America, will be held at Yosemite National Park on the weekends of January 9-11 and January 16-18.

Participation is expected to be more than 650 Scouts and Scouters from the three county area of the council.

According to William King, Jr., the council camping chairman, the activity is already a sell out and units seeking additional reservations are being placed on a waiting list. This popular winter sports activity offers an opportunity for Scouts and Scouters to have a weekend of snow fun, skiing, ice skating, sledding, hikes to historical places, visits to museums, campfire programs and movies.

Meals for this event are provided by the Yosemite Lodge Cafteria while sleeping accommodations are provided in Camp Curry and Yosemite Lodge.

This is the 36th annual winter camp and each year the event is sold out, despite the ever increasing number of spaces being made available for accommodations.

so they'll be ready to survive thanks to their own individual way of proving they have intestinal fortitude.

As my young friends like fish, and during the season go after abalone, I shall now repeat a marvelous abalone chowder, printed in the Carmel Pine Cone by your columnist when she started this feature four years ago. My young skindiver friends say they would never make this on the beach . . they would take the abalone home to their moms . . so here is the original Pop Ernst (given personally to Phyllis years ago when she was stationed at the Monterey Presidio with her Cavalry husband.)

Pop Ernst Original Abalone Chowder

Celery stalks; white part of white leeks; 1 green pepper; 1 onion . . all chopped; 1 can evaporated milk; dilute slightly according to preference; 1 large peeled potato, cubed; 2 slices diced salt pork; flour to thicken lightly; 1 lb. sliced abalone; herbs to taste.

Start abalone in cold water; remove when boiling. Braise vegetables in salt pork and when translucent add flour gradually.

Simmer 30 min. Avoid lumps by using rotary beater; grind abalone, add to chowder. Add seasonings and milk. Serve steaming into large polished abalone shells with plugged holes (found at Fisherman's Wharf) with sea biscuits or pilot crackers. Safe Sailing for our three young local 18 year old Navy volunteers! And welcome back aboard anytime!

Lobos find winning range; Hancock Tourney next

by Marc Hinchey

Back on a winning track after being "derailed" in three straight games, Monterey Peninsula College continues non-league basketball action Sunday in the Hancock Tournament at Santa Maria.

MPC will go up against the Foothill College Owls in a 7 p.m. contest.

After dropping decisions to Diablo Valley, Mofitt Field and Shasta, the Lobos put together an impressive performance last Saturday night. MPC donwed College of the Redwoods 79-69 in the second game of a doubleheader at MPC Gymnasium. Earlier, Hartnell had drubbed Shasta 95-75 in the first game.

The Lobos jumped into a ten point lead against Redwoods shortly before halftime and maintained it throughout the game. Forward Buz McClay was the "big gun" of the evening for MPC – scoring 15 points in the first half, and finishing up with 27 markers to lead all scorers.

Backing up McClay were freshmen Nick Turner (13), and Jerry Brown (11), along with sophomore Dan Hoffman (9). Bill Pendergrass had 26 for the losers.

In their two prior losses to Mofitt and Shasta, the Lobos played well, but fell victim to turnovers or fouls. Against Shasta, the inability to convert free trows cost Monterey dearly. MPC out field goaled Shasta but lost the game from the charity line. McClay and Brown paced Lobo scoring with 14 each.

The Wolfpack played a scrappy game, but was clearly outmanned by the experienced Mofitt Field five. The sailors got two Twenty point performances but still were only able to nip MPC 78-70, even though the Lobos were without the services of guard Dave Stewart.

Next homecourt action for the Lobos will be on January 7 when they host Ohlone in the Coast Conference opener.
